RESUME

MARCEL EMMANUEL

GRAPHIC DESIGNER

Hey, I am a Graphic Designer who enjoys bringing ideas to life through clean, creative and meaningful visuals. I love creating designs that feel simple, modern and easy to connect with, whether it's for branding, social media or digital projects.

I am also skilled in Microsoft Office Suite (Word, PowerPoint, Excel). I design neat presentations, well-organized documents and professional layouts that fit perfectly with the style and message of each project.

I like keeping things clear, creative and purposeful. Every design I work on is crafted with intention, attention to detail and a genuine passion for visual storytelling.
